PATIENT UPDATE – SERVICES AT BEGGARWOOD SURGERY FROM 1/2/22.

From 1 February 2022 our practice will become a branch surgery of Camrose, Gillies and Hackwood Partnership (locally known as CGH).

Patients currently registered at the practice do not need to take any action. Services will continue to be provided from the Beggarwood site in Broadmere Road from February and the practice will still be required to provide the same range of services.

Permanent eligible staff will be transferred across to the new contract-holder, on the same employment terms and conditions as they have now.

Dr Charlotte Hutchings, Clinical Lead for North and Mid Hampshire, for NHS Hampshire, Southampton and Isle of Wight Clinical Commissioning Group (CCG), said:

“We can now announce that following a competitive selection and procurement process Camrose, Gillies and Hackwood have been awarded the contract to take over as the provider at Beggarwood Practice from 1 February.

“This is hugely welcome news for both the patients and staff there, and we are already working with the new contract-holder so that they can move in seamlessly on 1 February.”
